

Erie Canal Harbor Development Corp.

Fun. Sun. Something for Everyone!

A MESSAGE FROM JORDAN LEVY, CHAIRMAN OF THE ERIE CANAL HARBOR DEVELOPMENT CORPORATION

“The Story of Buffalo” is the story of our waterfront and that story will be told at Canal Side this summer. More than 300 events, including concerts, programs for children, festivals and historic reenactments will highlight our community’s rich history, in the very place where Buffalo began.

The Erie Canal Harbor Development Corporation (ECHDC), a subsidiary of Empire State Development, is responsible for the development of Buffalo’s waterfront. Our vision is to revitalize Western New York and restore economic growth to Buffalo based on our region’s legacy of pride, urban significance and natural beauty.

Over the course of the past year we have engaged in dozens of meetings, hearings and workshops with one goal: to listen to what the public wants on the waterfront. Hundreds of ideas were generated from those sessions and, in order to implement them, ECHDC created a series of subcommittees with representation from over 90 members of our community. The new features that you will be able to enjoy this summer—the Queen City Water Ferry, an expanded Central Wharf, food at the Inner Harbor and hundreds of events—are the direct result of your input.

In fact, your impact will be felt beyond this summer. Later this year, ECHDC will break ground on a series of public canals at the former site of the War Memorial Auditorium and I am proud to say that those canals will follow the original alignment of the Erie Canal as it came through Buffalo. One of the main concerns voiced by the public during our outreach efforts was the need for authenticity and we responded by going back to original documents that detailed the path and dimensions of the Erie Canal.

Whether you come to the waterfront to enjoy one of our “Buffalo Place Rocks the Harbor” concerts, keep in shape with a yoga class or simply to enjoy some of the best sunsets in the country, I want you to know that you are helping to shape our waterfront, and in turn, the future of Buffalo. Our connection to Lake Erie and our distinction as the terminus of the Erie Canal is what transformed a sleepy waterfront village at the beginning of the 19th century into an industrial powerhouse in the 20th, and that same waterfront will be the key to determining our destiny in the 21st century.
